

Frontiers in Chemical Engineering Virtual Symposium

Friday, Sept. 25th
10 AM - 4PM PST on Zoom

10 AM

Discovery and Engineering of Plant Chemistry for Plant and Human Health

Elizabeth Sattely, Stanford University

11 AM

Engineering Sequence-Defined Macromolecules for Drug Delivery and Synthetic Materials

Christopher Alabi, Cornell University

1 PM

Chemotactic Droplet Predator-Prey Interactions Due to Non-Reciprocal Oil Exchange

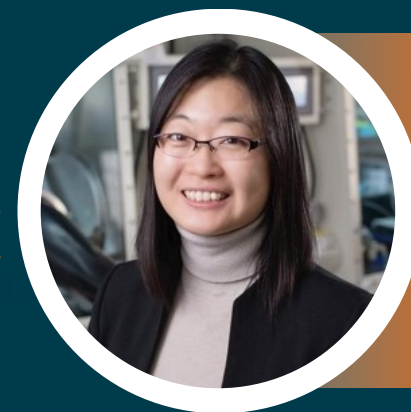

Lauren Zarzar, Penn State

2 PM

Assembly of Molecular Electronics: The Journey is More Important Than the Destination

Ying Diao, UIUC

3 PM

Self-Assembly of Block Copolymers with Tailored Functionality

MoonJeong Park, POSTECH
